LIVE DEMONSTRATIONS

During the BURKLE Surface Days, you can experience our technology portfolio in real production conditions. Our experts will demonstrate a variety of processes live and explain how production processes can be optimised.

-  **Spray coating machine ROBUSEco**
with automatic destacking for craft industries
-  **Spray coating machine ROBUSpro Rotation**
for industrial applications
-  **Roller coating machine RCL/LFC**
with UV/LED curing
-  **Glue application machine RCG**
with automatic cleaning function
-  **PUR Multi-Line**
for the crafting or industrial sectors
-  **Ultrafoil**
production of special surfaces using inert curing

OUR INDUSTRIAL SOLUTIONS

We will also show you how modern surface technologies can make your production processes more flexible and cost-effective. Discuss current challenges with our experts and explore how our solutions can be integrated into your industrial production environment.

- ◆ Press technology for door, lightweight panel and parquet production
- ◆ Spray and roller coating technology
- ◆ PUR and laminating technology
- ◆ Automation & Robotics

SERVICE & DIGITALIZATION

We remain your reliable partner even after commissioning, providing ongoing support and assistance as needed. Come and visit us at the Bürkle Surface Days to find out how our service concepts and digital solutions can help to increase availability, optimise processes and minimise downtime.

- **Retrofits**
- **Spare Parts & Repairs**
- **Remote Service & Digitalization**
- **Preventive Maintenance**
